A DISTINCTIVE MEMBER OF THE HOUSE OF ROHL

HOUSE OF ROHL

THE STORY CRAFT TELLS

Perrin & Rowe is a member of the House of Rohl, a collection of artisan brands recognised for their artistry and heritage.

The Rohl family have spent a lifetime seeking stories of dedication, passion and craft. They have brought together diverse brands, exceptional in their category, that complement each other. Independent spirits, but shared values. A belief that quality starts with the material, design is in the detail and craftsmanship is paramount.

Distinctive stories are what makes life exceptional. At the House of Rohl, we discover time-honoured craft, revealing stories unlike any other. Stories of place and provenance. Stories of ingenuity and invention. Stories of a relentless pursuit of perfection.

Welcome to the House of Rohl®

THE PERRIN & ROWE STORY

Forty years ago in East London, Bob Perrin and Greg Rowe began an extraordinary partnership. Despite limited funds and a workshop that was little more than a garden shed, they began by machining brass components that others found too difficult to make. As designers they made their name by producing the world's first 3 in 1 tap – a tap that dispensed hot, cold and filtered water – using their own Triflow technology. This blend of innovation and traditional manufacturing craft defines the Perrin & Rowe brand today.

Our comprehensive range of kitchen and bathroom brassware is manufactured in our own factories in Britain. We still make taps in small batches, pouring molten brass by hand into moulds of our own design. Our sanitaryware is made in Staffordshire, the heart of English ceramic manufacture for three hundred years. By controlling every element of design and production, Perrin & Rowe has become known by architects and design professionals for its quality and durability.

Bob and Greg retired some years ago, but their legacy and passion live on at Perrin & Rowe. Now a luxury brand with an international reputation, our principles of British design and craftsmanship, advanced engineering and traditional manufacturing, remain the foundation of our success.

PROUDLY MADE

IN BRITAIN

THE PERRIN & ROWE PROMISE

All Perrin & Rowe products are designed and manufactured in Britain.

We are driven by engineering excellence. We use state of the art manufacturing technology to support our traditional methods and skills.

Our brassware is made from low lead brass of the highest quality available. The surface is plated to a thickness that exceeds industry standards, ensuring a deep, protective coating that is resistant to wear and pleasing to the eye.

We assemble our brassware by hand, and individually water-test each one.

Our handles and spouts include bearing rings and engineering 'O' seals to ensure maximum durability.

Perrin & Rowe brassware has a 'wobble free feel'.

Our ceramic disc valves are tested up to 500,000 cycles and supplied by the world's leading ceramic cartridge manufacturer. On test, valves are repeatedly turned on and off with pressurised water to the equivalent of 25 years' use in a domestic installation.

Perrin & Rowe specifically manufacture for different markets around the globe. No additional adapters or converters are required for installation.

Our aim is to offer the world's finest range of kitchen and bathroom products.

THE PERRIN & ROWE FINISHES

STANDARD

Perrin & Rowe brassware can be customised to suit your own personal style with seven, high quality finishes that complement a range of bathroom designs, appliances, cabinetry and fittings.

Chrome is a brilliant, silver finish with a hint of blue

Nickel is a shiny finish with a golden glow

Pewter is a brushed Nickel finish with a blue-grey, matte appearance

CHROME

NICKEL

CARE & MAINTENANCE GUIDE

A guide to caring for each of the different finishes is available on our website: www.perrinandrowe.co.uk

SPECIAL

Perrin & Rowe Special Finishes are a range of luxurious, warm metallic hues to bring a touch of style and unique character to your bathroom.

English bronze Metallic brown finish with subtle notes of orange and copper.

Gold Plated with 24 Carat gold pure yellow in colour, with a natural glow and high shine.

Living finishes

Polished and Satin Brass are described as 'Living Finishes' which means they develop a unique patina over time as they react with their environment.

Polished brass A warm finish with coppery undertones.

Satin brass A matte finish with strong undertones of yellow ochre.

BASIN

To us, details matter; the materials, the care and the precision... that's what the Perrin & Rowe signature is about. Our 'hot' and 'cold' indexes are the perfect example. Made from fine porcelain – smooth and perfectly domed – they're a small, but important part of the average thirty components that are assembled by hand to make each of our taps. Perrin & Rowe basin taps feature quarter-turn ceramic disc valves for a precise feel when being turned on and off.

SHOWER

5550

5552

5555

5556

Perrin & Rowe showers are thermostatically controlled by a highly accurate wax cartridge. A pre-set, maximum temperature of 38°C minimises the risk of a shower being too hot, or worse, scalding. In the unlikely event of your hot or cold water supplies failing, a shut off device will automatically activate. Shower valves are available as concealed or exposed designs; choose an exposed valve for maximum impact, for smaller showering areas, opt for a concealed valve with an octagonal plate, where the valve's pipework is hidden in your bathroom wall.

PRODUCTS AVAILABLE

- 5550** Exposed thermostatic shower with lever handles
- 5552** Exposed thermostatic shower with crosstop handles
- 5555** Concealed thermostatic shower with lever handles

T H E C H I N A W A R E C O L L E C T I O N

In Tamworth, in that region of England still known as 'the Potteries' for its long history in ceramics, we make each basin and WC by hand from Cornish clay. The process has changed little in 300 years. Perrin & Rowe's sanitaryware collection is the perfect complement to our Traditional, Georgian and Deco brassware collections.

EDWARDIAN

Feminine with fluted and soft, curving detail, Edwardian chinaware is perfect for new romantic, country-chic bathroom schemes. A shaped upstand complements the basin's scooped bowl, which can be partnered with a single, two-hole or three-hole tap. Lavatories and cisterns are close-coupled.

PRODUCTS AVAILABLE

2901 Basin – single hole

2902 Basin – two hole

2903 Basin – three hole

CLOSE COUPLED WC

VICTORIAN

The Doric form and classic, understated lines of Victorian chinaware makes it the ideal choice for smaller bathrooms, en-suites and cloakrooms. Single, two and three hole basins are available and the Victorian basin's elliptical bowl features a small upstand. True to the era, there is a choice of high or low-level cistern.

PRODUCTS AVAILABLE

- 2861** Basin – single hole
- 2862** Basin – two hole
- 2863** Basin – three hole
- 2864** Pedestal
- 2879** Back to wall pan

Perrin & Rowe

3520/1

DISCOVER

The Perrin & Rowe Kitchen Collection offers a multitude of design and styling options. Choose a sleek Orbiq, Oberon or Io from the Langbourn Collection; opt for the timeless form of a Phoenician, Minoan or Ionian from the Traditional Collection or go for rustic style with a Picardie, Provence or Alsace from the Country Collection.

Enhance your tap with a stand-alone, patented rinse, then customise your tap to suit. An alternative spout; crosshead handles rather than levers? Wall-mounted rather than surface-mounted fixings? Handles to match your work surface? No problem – it's your tap and most importantly, it's your choice.

Manufactured exclusively in our own factories in the UK and assembled by hand, all of our kitchen taps feature ceramic disc valves and are individually tested.

ACCREDITATIONS

For your reassurance, every piece of Perrin & Rowe brassware is engineered from approved materials to exacting standards and hand-assembled within an ISO 9001:2008 accredited, quality assured environment. Recognised all over the world for its stringent, detailed standards and attention to processes ISO 9001:2008 approval is a true mark of international quality.

Perrin & Rowe believes in upholding the international standards required wherever its products are sold. Our international approvals include WRAS, KIWA UK, UPC, NSF and the Australian Watermark Standard.

All of our products are designed to comply with the requirements of the Water Supply (Water Fittings) Regulations 1999 for England and Wales, the Water Byelaws 2000, Scotland and the Water Regulations Northern Ireland.

Many have been independently tested and verified by either Kiwa UK or WRAS, to check a specific product, or for all current listed products please contact us.

Should you have any concerns or queries about your Perrin & Rowe brassware, we will be only too pleased to help. We operate a dedicated aftersales and technical advisory service, so if you have a question, just ask us.

For further details, distributor and retailer information and to peruse the full Perrin & Rowe collections, please visit www.perrinandrowe.co.uk

Due to TCL Manufacturing Ltd continuing policy of product development, we reserve the right to modify or alter designs at our discretion. All measurements shown in this document are in millimetres (mm). TCL Manufacturing Ltd Terms and Conditions are available upon request. Perrin & Rowe is manufactured by TCL Manufacturing Ltd.

GUARANTEE

All products are manufactured in the UK from the highest quality raw materials available. Plating on Perrin & Rowe Products exceeds the industry standard by 10 microns: standard at 15 microns, and Perrin & Rowe at 25 microns. This additional plating will ensure a deep, protective coating that is resistant to wear and tear and is very pleasing to the eye. Each product is assembled by hand and individually water tested to ensure peace of mind. All products include bearing rings on valves for maximum durability. Bearing rings give Perrin & Rowe products a stable "wobble free feel". Engineering 'O' rings are also used. These 'O' rings are more durable than standard washers and less likely to cause problems due to drips and leaks. Ceramic disc valves are supplied by Flühs of Germany, the world's leading cartridge manufacturer.

TCL Manufacturing Ltd operates a programme of continuous product design, development and improvement. As such, TCL Manufacturing Ltd reserves the right to change and update its products without notice. Whilst we have made every attempt throughout this brochure to use imagery that is faithful to product form and finish, variations resulting from photographic lighting, print and reproduction cannot be avoided.

WELCOME TO THE HOUSE OF ROHL®

The House of Rohl is a collection of artisan brands
recognised for their artistry and heritage.

RIOBEL

CONTEMPORARY BRASSWARE

Quebec is where European culture meets North American spirit. In this vibrant city, Riobel design distinctive and innovative brassware, inspired by the sculptural forms of contemporary architecture. Beneath the surface, industry-leading engineering delivers performance and reliability. Riobel offers luxury designed to be lived with.

SHAWS

FIRECLAY SINKS

The genius of founder Arthur Shaw was to identify the waste material extracted from the colliery at Darwen, as fireclay. In 1897 he established Shaws of Darwen to make use of it.

Today, at the same factory in Northern England, Shaws' own Heavy Duty Fireclay is fired hotter and longer to produce kitchen and bathroom sinks with an incredibly durable finish.

VICTORIA + ALBERT

BATHS AND BASINS

To make beautiful baths and basins of the highest quality, Victoria + Albert developed their own unique material. Made from natural Volcanic Limestone™, QUARRYCAST™ is light, warm to the touch and incredibly strong. This gives Victoria + Albert's designers the freedom to create award-winning designs that can last a lifetime.
