## DECK HANDSHOWER INSTALLATION INSTRUCTIONS (STEPS 1 - 4)

1. When necessary, drill a suitable size hole in the mounting surface to suit the threaded tail of the shower bracket (A) which is  $\text{Ø}29$ .
2. Pass the threaded tail of the shower bracket (A) through the hole in the mounting surface.
3. Locate both washers (B) onto the threaded tail. Ensure that the rubber washer is assembled first so that it comes into direct contact with the mounting surface.
4. Screw the backnut (C) onto the threaded tail, and tighten the shower bracket to the mounting surface using the three attached screws. Do not over tighten.

## DECK HANDSHOWER INSTALLATION INSTRUCTIONS

5. Locate the hose through the shower bracket. The angled holder should sit upright within the bracket.
6. Install the counter-weight 1/3 of the way up the hose (D). This can be completed by aligning the two halves around the hose and securing in place using the two provided screws.
7. To finalise the installation, screw the handshower into the angled bracket on the hose (E).
