Retractive Toggle Switch EU

Bronze 31223

Using our switch components, you can create any combination of plate and switch that you need.

This Bronze retractive switch flicks back into the top 'off' position when you let go. You can use it for things like doorbells, in-sink food waste grinders and to dim lights (with either a remote dimmer or our in-line unit).

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

 • Made from solid brass

 • Works with either our solid brass switch plates in the Bronze finish or our clear plates
