

Grove Single 2x HDMI Socket

Bronze | Black 31739

The switches and sockets in our Grove range can be installed with most existing back boxes, so they're ideal for retrofitting.

They offer a refined but bold look that'll make more of a statement on your walls. The front plates are precisely machined for crisp, clean edges and they're screwless (they simply clip in place).

Our single 2x HDMI socket is crafted to be as sleek and timeless as possible in any interior setting.

Use an HDMI socket to connect displays (like TVs or monitors) to HDMI source devices (like computers or games consoles) directly through the wall for a tidier look.

The low-sheen, slightly textured plastic inserts around the sockets come in black.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

• Solid brass plate

• Screwless design and easy clip-on installation

• Ideal for renovation projects where a standard 20mm single back box is already in situ

• Plastic chassis eliminates the need to ground the front plate

• Check our standard back box guidelines to ensure compatibility
