ARCHITECTURAL DETAIL

## Centre Retractive Toggle Switch EU

Bronze 31971

Using our switch components, you can create any combination of plate and switch that you need.

This Bronze centre-retractive switch flicks back to the centre 'off' position when you let go. You can use it for things like electronic blinds and to dim lights (with either a remote dimmer or our in-line unit).

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

&nbsp;•&nbsp; Made from solid brass

&nbsp;•&nbsp; Works with either our solid brass switch plates in the Bronze finish or our clear plates
