

## Grove Single Toggle Switch

Bronze 33122

The switches and sockets in our Grove range can be installed with most existing back boxes, so they're ideal for retrofitting.

They offer a refined but bold look that'll make more of a statement on your walls. The front plates are precisely machined for crisp, clean edges and they're screwless (they simply clip in place).

Our single two-way toggle switch is a modern take on the classic dolly design. We've crafted it to be as sleek and timeless as possible in any interior setting.

Use a two-way switch where you want to simply turn a lighting circuit on and off. You can have either one or two of these switches on one circuit. For three or more, add an intermediate switch.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

• Solid brass plate and toggle

• Screwless design and easy clip-on installation

• Switch mechanism engineered to give a solid, satisfying click

• Ideal for renovation projects where a standard 25mm single back box is already in situ

• Plastic chassis eliminates the need to ground the front plate

• Check our standard back box guidelines to ensure compatibility
