

Grove Double USB-C 30W & Schuko Type F Socket

Polished Nickel | Black 34064

The switches and sockets in our Grove range can be installed with most existing back boxes, so they're ideal for retrofitting.

They offer a refined but bold look that'll make more of a statement on your walls. The front plates are precisely machined for crisp, clean edges and they're screwless (they simply clip in place).

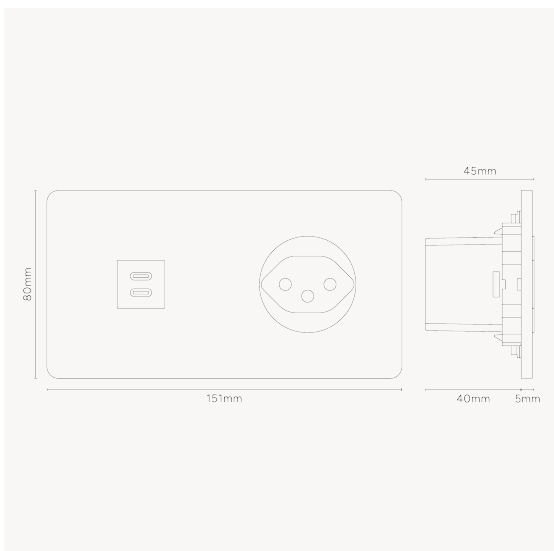

This double mixed socket combines a USB-C and Schuko socket on one plate.

Use a 30W USB-C socket to fast charge up to two USB-C devices.

Use a Schuko socket to power household appliances like lamps, TVs and computers, coffee machines and washing machines.

The low-sheen, slightly textured plastic inserts around the sockets come in black (like this one) or white.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

• Solid brass plate

• Screwless design and easy clip-on installation

• Ideal for renovation projects where a standard 45mm double back box is already in situ

• Plastic chassis eliminates the need to ground the front plate

• Check our standard back box guidelines to ensure compatibility
