

Grove Single 2x RJ45 Socket

Polished Nickel | Black 36853

The switches and sockets in our Grove range can be installed with most existing back boxes, so they're ideal for retrofitting.

They offer a refined but bold look that'll make more of a statement on your walls. The front plates are precisely machined for crisp, clean edges and they're screwless (they simply clip in place).

Our single 2x RJ45 socket is crafted to be as sleek and timeless as possible in any interior setting.

Use an RJ45 socket to connect a computer, laptop or router to a fast Ethernet network.

The low-sheen, slightly textured plastic inserts around the sockets come in black (like this one) or white.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

• Solid brass plate

• Screwless design and easy clip-on installation

• Ideal for renovation projects where a standard 20mm single back box is already in situ

• Plastic chassis eliminates the need to ground the front plate

• Check our standard back box guidelines to ensure compatibility
