

Grove Single USB-C 30W Socket

Antique Brass | White 37928

The switches and sockets in our Grove range can be installed with most existing back boxes, so they're ideal for retrofitting.

They offer a refined but bold look that'll make more of a statement on your walls. The front plates are precisely machined for crisp, clean edges and they're screwless (they simply clip in place).

Our single USB-C socket is crafted to be as sleek and timeless as possible in any interior setting.

Use a 30W USB-C socket to fast charge up to two USB-C devices.

The low-sheen, slightly textured plastic insert around the socket comes in white (like this one) or black.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

• Solid brass plate

• Screwless design and easy clip-on installation

• Ideal for renovation projects where a standard 45mm single back box is already in situ

• Plastic chassis eliminates the need to ground the front plate

• Check our standard back box guidelines to ensure compatibility
