The Perrin & Rowe Kitchen Collection

Perrin & Rowe: The fusion of function and beauty; durability and desirability.

The strength of the Perrin & Rowe brand is built upon a clear understanding of the requirements in the luxury sector: product reliability, durability, quality and real value for money.

Renowned for its unrivalled quality and an exacting attention to detail, Perrin & Rowe's wide and varied product portfolio includes kitchen taps, bath and basin brassware, bathroom accessories and bathroom chinaware.

Perrin & Rowe's products are outstanding examples of design excellence combined with cutting edge precision engineering. Our products are not mass produced; instead we concentrate on perfecting each individual hand-built product in our UK manufacturing facilities.

Our reward - Perrin & Rowe products have consistently been specified and installed in the most stunning and luxurious hotels, resorts, spas and private residences around the World.

The Perrin & Rowe Promise

All products are:

- Manufactured in the UK from the highest quality raw materials available;
- inspired by innovation and driven by engineering excellence;
- manufactured employing the latest available technology and made from low lead brass;
- plated to a thickness that exceeds the industry standards. This additional plating will ensure a deep, protective coating that is resistant to wear and tear as well as pleasing to the eye;
- assembled by hand and individually water tested to ensure peace of mind;
- made to include bearing rings and engineering 'O' seals on handles and spouts to ensure maximum durability. This feature prolongs the service life of the product and gives Perrin & Rowe products a stable "wobble free feel";
- made with ceramic disc valves supplied by the world's leading ceramic cartridge manufacturer. Valves are repeatedly tested up to 500,000 life cycles, (turned on and off with pressurised water), this equates to at least 25 years of use in a domestic installation;
- specifically manufactured for each market. No additional adapters or converters are required for installation.

The Traditional Collection of Perrin & Rowe kitchen mixers offer a variety of combinations of colours and finishes. Through the innovative use of materials such as Brass, Porcelain, Corian and Avonite, Perrin & Rowe has made it possible to design a tap to suit your own individual requirements.

Contemporary and Country mixer taps are not available with Corian or Avonite options.

Important Note: The colours shown are not exact representations. Please contact Corian direct for a brochure - www.corian.com.

CORIAN® is a registered trademark of E.I. Du Pont de Nemours.

AVONITE® is a registered trademark of Avonite Inc.

Please contact Dupont Corian directly for advice on using Corian for other applications within your kitchen.

4771 - Three Hole Sink Mixer with Lever Handles

4776 - Three Hole Sink Mixer with Lever Handles and Rinse

Finishes: Chrome, Gold, Nickel, Pewter.

Hand Rinse

Clean fresh fruit, vegetables and dirty crockery sinkside and without wasting water with the addition of a stand-alone hand rinse. Available for most Perrin & Rowe kitchen taps, the hand rinse makes a tap a multi-purpose workstation.

Easy to use and versatile, the rinses can be positioned to the left or the right of the sink. They have insulated handles and a flexible hose (standard length 120cm) ensuring safety and convenience.

Hot, cold or mixed water is diverted to the rinse once the top button is pressed. Perrin & Rowe hand rinses have been specially designed to cope with even low water pressures; the integration of a patented diverter means that they can be effective with just 1 bar (15psi) of pressure.

Perrin & Rowe hand rinses are available in five different designs to complement each collection. A full range of finishes – including combination colours – are also available.

Please note that rinses must not be connected directly to the mains supply of cold water and that the maximum recommended pressure is 5 bar (75psi). Taps selected with rinses will have single-flow spouts. Patent pending.

DISCOVER MORE

The Perrin & Rowe Filtration Collection

Using "Triflow® Technology"

All the style and quality you would expect from Perrin & Rowe but with the added luxury of filtered drinking water.

Our newest range of kitchen filtration taps uses high quality Swiss made ceramic cartridges to dispense the finest quality drinking water through a dedicated waterway within the taps spout.

While offering such advanced filtration we still retaining the important elements in the water for your health such as fluoride and calcium.

For more information please visit our website www.perrinandrowe.co.uk

FROM PERRIN & ROWE

The Perrin & Rowe Bathroom Collection

Exclusively designed and engineered to a high standard in the UK, the Perrin & Rowe Bathroom Collection is a portfolio of the finest Traditional and Contemporary bath, basin and bidet taps, showers, chinaware and accessories available today.

A preferred brand of discerning architects and designers, Perrin & Rowe Bathroom brassware has earned specification for some of the world's most luxurious hotel, resorts, spas and private residences. Most recently, these have included Sandy Lane, Barbados, the Savoy Group, London, Celtic Manor, Wales, Huka Lodge, New Zealand and Sofitel Group.

A vast range of options are available within each Perrin & Rowe Collection; items such as rainbars and body sprays can truly enhance the showering experience. Offering a personal touch, fittings can be finished in chrome, nickel, pewter and gold.

The Perrin & Rowe Chinaware Collection

Beautiful bathroom brassware needs beautiful chinaware. Consistent with our heritage, the collection includes basin, bowles and lavatories which are manufactured exclusively in our own factory in the heart of the English pottery country.

Products shown in this brochure are copyright of TCL Manufacturing Ltd.

For your reassurance, every piece of Perrin & Rowe brassware is engineered from approved materials to exacting standards and hand-assembled within an ISO 9001:2000 accredited, quality assured environment. Recognised all over the world for its stringent, detailed standards and attention to processes ISO 9001:2008 approval is a true mark of international quality.

Perrin & Rowe believes in upholding the international standards required wherever its products are sold. Our international approvals include WRAS, UPC, the Water Quality Mark and the Australian Standard.

Should you have any concerns or queries about your Perrin & Rowe brassware, we will be only too pleased to help. We operate a dedicated aftersales and technical advisory service, so if you have a question, just ask us.

Installation Pressure for single flow spouts is 1bar minimum. For bi-flow spouts the installation pressure is 0.2 bar. All rinse products are 1 bar minimum.

TCL Manufacturing Ltd operates a programme of continuous product design, development and improvement. As such, TCL Manufacturing Ltd reserves the right to change and update it's products without notice. Whilst we have made every attempt throughout this brochure to use imagery that is faithful to product form and finish, variations resulting from photographic lighting, print and reproduction cannot be avoided.

NB: Dimensions in this brochure are shown in millimetres and approximate, for guidance only. Installation Pressure for single flow spouts is 1 bar minimum. For bi-flow spouts the minimum installation pressure is 0.2 bar whilst all Rinse products require 1 bar minimum.
