# Period Tiles

During the Victorian era there was a tremendous resurgence of interest in the use of tiles for all kinds of projects.

Two principal design movements contributed to that increase in interest, the Gothic Revival, and the Arts and Crafts Movement.

Individually patterned tiles, or tiles which could be laid together to form patterns, were now mechanically produced in volume.

# Commercial Useage

*Need inspiration for  
your next project?*

When it comes to creating a high end, truly luxurious look and feel, many designers opt for our Period Embossed range.

From backdrops to expensive clothing, intimate booth areas in bars, and eye-catching pillars to the most opulent of bathrooms, you will certainly leave your clients with a renovation they want to shout about.

Plain tiles are used alongside embossed tiles with matching corners and mouldings to create a stunning raised effect that you'll just want to touch over and over and again!

# Bespoke Service

*Sometimes a project requires something special.*

Hawksmoor required bespoke tiles for a restaurant project. We consulted on the type, style, colour and pattern with them and helped make their restaurant interior project a success.

H&E Smith have an excellent track record consulting with clients over the production of distinctive bespoke wall tiles.

Christian Louboutin wanted us to create a bespoke tile for them, incorporating their brand and initials. We consulted with them and delivered the completed tiles to their full satisfaction.
